

<5th Year of Reiwa School Goals>

Think hard, Take initiative, Value yourself and others

~ Lots of smiles Lots of dreams ~

OWork towards your goals OWork until the end OWork well with others

~6th Grade Volunteer Activities Looking To Graduation~

This year, due to the mild winter, there has been less snow than usual, and the days have been comfortable. However, there are still some days that feel chilly due to a cold wind or a drop-in temperature after a rainfall.

Under these circumstances, there are only 20 days left for the 6th graders to come to the elementary school. As the locomotive of Kibikogen Elementary School, they have been leading and leading the whole school by example through events and various activities. We are impressed by their growth, but there is one thing they are working on even more in the third semester. In the third semester, they have been working on something even harder: volunteer activities. Heading towards graduation, they can be seen working hard, even in the cold mornings, to clean up the school. They can be seen sweeping the central corridor and collecting fallen leaves in the school yard.

What is especially wonderful is that the 6th graders are independently thinking and discussing these activities. We are happy to see that the students are developing into students who can "think clearly and work willingly," which is one of the school's educational goals.

~Thank You for Visiting Our Sex Education Day~

On January 23rd (Tu), each class had a sex-related study on Sex Education Day. Through these studies, students learned that the body has various functions, that it is important to take care of our own bodies and those of our friends, that our lives are inherited by many people and that our lives are connected, and that we should think about sexual information in our own lives. Through each of these studies, we hope to nurture the students' desire to cherish their own bodies and lives, as well as the people around them, and to recognize each other. At the PTA lecture meeting, Ms. Fumiko Higashimori of NPO Mint House and midwifery clinic Mint House gave a lecture titled "Baton of Life". She said, "You can't change the environment with your own hands, but you can change your future with your own hands." It was a valuable opportunity for us to think about the preciousness and importance of life.

~ New 1st Graders Information Session Finished~

On February 9th (F), we held an orientation for new 1st grade students entering the 2024 school year. The current 1st grade students introduced what they are studying and presented what they have become able to do. The children who will be entering the first grade listened attentively to their presentations.

The parents were invited to participate in the "Parental Growth Support Program" conducted by facilitator Ms. Reika Tsushima.

The program was designed to provide parents with an opportunity to listen to Ms. Tsushima's talk and to feel relieved about their anxiety before school entry, to cherish the time they spend with their children, and to take advantage of this opportunity. The event also provided an opportunity for parents to build relationships with other parents. This was a very meaningful time for us.

ONE SHOT ~Scenes from Everyday Life~

Please check our daily updates on how the students are doing on the HP

1/19 The Ohtani Shohei Gloves Arrived

We introduced the gloves that had arrived at the extraordinary school assembly and handed them to the 6th graders as a representative. Afterwards, many of the children were seen happily taking the glove in their hands.

2/2 English Speech Contest (1st ~3rd)

"Hello! I like baseball. Because I want to be a baseball player in the future. It's fun. Thank you." (3rd Grade Student) The desire to tell people about yourself was wonderful.

<Events in February & March>

Feb 17th (Sat) – March 4th (M) Exhibition of Children's Works
20th (Tu) Group Play
21st (W) 6th Grade Graduation work (by nap)
22nd (Th) Visit Day, Plenary Session, Class Discussion
